Preface.....	ix
--------------	----

INTRODUCTION

History of the Nazca Plate Project.....	3
<i>George P. Woollard and LaVerne D. Kulm</i>	

DIVERGENT BOUNDARY

Tectonics of the Nazca-Pacific divergent plate boundary.....	27
<i>David K. Rea</i>	
Structure and evolution of the Easter plate.....	63
<i>D. W. Handschumacher, R. H. Pilger, Jr., J. A. Foreman, and J. F. Campbell</i>	
Petrogenesis and secondary alteration of upper layer 2 basalts of the Nazca plate.....	77
<i>K. F. Scheidegger and J. B. Corliss</i>	
Temporal variations in secondary minerals from Nazca plate basalts, diabases, and microgabbros.....	109
<i>Debra S. Stakes and K. F. Scheidegger</i>	

METALLIFEROUS SEDIMENTS

Geochemistry of Nazca plate surface sediments: An evaluation of hydrothermal, biogenic, detrital, and hydrogenous sources.....	133
<i>Jack Dymond</i>	
Metalliferous-sediment deposition in time and space: East Pacific Rise and Bauer Basin, northern Nazca plate.....	175
<i>G. Ross Heath and Jack Dymond</i>	
Lead isotopic composition of metalliferous sediments from the Nazca plate.....	199
<i>E. Julius Dasch</i>	
Sediment accumulation rate patterns on the northwest Nazca plate.....	211
<i>G. M. McMurtry, H. H. Veeh, and C. Moser</i>	
Uranium and thorium isotopic investigations in metalliferous sediments of the northwestern Nazca plate.....	251
<i>H. Herbert Veeh</i>	
Formation and growth of ferromanganese oxides on the Nazca plate.....	269
<i>Mitchell Lyle</i>	
Sediment and associated structure of the northern Nazca plate.....	295
<i>D. L. Erlandson, D. M. Hussong, and J. F. Campbell</i>	

Economic appraisal of Nazca plate metalliferous sediments	315
<i>Cyrus W. Field, Dennis G. Wetherell, and E. Julius Dasch</i>	

CONTINENTAL MARGIN AND TRENCH

Tectonics, structure, and sedimentary framework of the Peru-Chile Trench.....	323
<i>W. J. Schweller, L. D. Kulm, and R. A. Prince</i>	
Coastal structure of the continental margin, northwest Peru and southwest Ecuador.....	351
<i>Glenn L. Shepherd and Ralph Moberly</i>	
Sedimentary basins of the Peru continental margin: Structure, stratigraphy, and Cenozoic tectonics from 6°S to 16°S latitude.....	393
<i>T. Thornburg and L. D. Kulm</i>	
Crustal structures of the Peru continental margin and adjacent Nazca plate, 9°S latitude.....	423
<i>Paul R. Jones III</i>	
Crustal structure and tectonics of the central Peru continental margin and trench.....	445
<i>L. D. Kulm, R. A. Prince, W. French, S. Johnson, and A. Masias</i>	
Late Cenozoic carbonates on the Peru continental margin: Lithostratigraphy, biostratigraphy, and tectonic history	469
<i>LaVerne D. Kulm, Hans Schrader, Johanna M. Resig, Todd M. Thornburg, Antonio Masias, and Leonard Johnson</i>	
Vertical movement and tectonic erosion of the continental wall of the Peru-Chile Trench near 11°30'S latitude	509
<i>Donald M. Hussong and Larry K. Wipperman</i>	
Shallow structures of the Peru Margin 12°S - 18°S	525
<i>S. H. Johnson and G. E. Ness</i>	
Clay mineralogy of the Peru continental margin and adjacent Nazca plate: Implications for provenance, sea level changes, and continental accretion	545
<i>Victor J. Rosato and LaVerne D. Kulm</i>	
Structures of the Nazca Ridge and continental shelf and slope of southern Peru.....	569
<i>Richard Couch and Robert M. Whitsett</i>	
Tectonics of the Nazca plate and the continental margin of western South America, 18° to 23°S	587
<i>William T. Coulbourn</i>	
Biogeography of benthic foraminifera of the northern Nazca plate and adjacent continental margin.....	619
<i>Johanna M. Resig</i>	
Estimation of depth to magnetic source using maximum entropy power spectra, with application to the Peru-Chile Trench	667
<i>Richard J. Blakely and Siamak Hassanzadeh</i>	
An active spreading center collides with a subduction zone: A geophysical survey of the Chile Margin triple junction	683
<i>E. M. Herron, S. C. Cande, and B. R. Hall</i>	
Structures of the continental margin of Peru and Chile	703
<i>Richard Couch, Robert Whitsett, Bruce Huehn, and Luis Briceno-Guarupe</i>	

ANDEAN CONVERGENCE ZONE

Volcanic gaps and the consumption of aseismic ridges in South America	729
<i>Amos Nur and Zvi Ben-Avraham</i>	
Geological and geophysical variations along the western margin of Chile near lat 33° to 36°S and their reaction to Nazca plate subduction.	741
<i>Allen Lowrie and Richard Hey</i>	
Chile Margin near lat 38°S: Evidence for a genetic relationship between continental and marine geologic features or a case of curious coincidences?	755
<i>E. M. Herron</i>	
Convergence and mineralization — Is there a relation?	761
<i>C. Wayne Burnham</i>	
Role of subducted continental material in the genesis of calc-alkaline volcanics of the central Andes	769
<i>David E. James</i>	
Isotopic composition of Pb in Central Andean ore deposits	791
<i>George R. Tilton, Robert J. Pollak, Alan H. Clark, and Ronald C. R. Robertson</i>	
Epilogue: Geostill reconsidered	817
<i>Cyrus W. Field and E. Julius Dasch</i>
