ACKNOWLEDGEMENTS

Without the generous contributions by many aloe enthusiasts, specifically towards providing photographic material, the production of this book would have been impossible.

The publisher and authors wish to thank the following institutions and persons:

- The National Botanical Institute of South Africa for permission to make use of their photographic material in the guide
- Members of the Succulent Society of South Africa and others for their quick response and thousands of colour slides they submitted for publication
- The following individuals need a special word of thanks for their contributions towards photographs, locating rare aloes and general liaison (alphabetic order): Charles Craib, Bernhard de Souza, Andy de Wet, Dave Hardy, Pitta Joffe, Brian Kemble, Sanet Krynauw, Cameron McMaster, Wally Menne, Geoff Nichols, Ronel Niemand, Jo Onderstall, Leo Thamm, Frans van der Merwe, Ernst van Jaarsveld, Eben van Wyk and Fanie Venter.

From a production point of view we would like to thank Ilse van Oudtshoorn for the illustrations and Aida Thorne for English editing.
