Conference Programme..... 7

Session 1: Contamination

Chairman: D. Hunkeler

Compound-specific isotope methods in contaminant hydrogeology: State-of-the-art and challenges
D. Hunkeler, Y. Abe (inv1)..... 13

Stable isotope study of a volatile hydrocarbons contaminated landfill site, Bonfol, Switzerland
Thierry R. Oppikofer, Torsten W. Vennemann, Jorge E. Spangenberg, Markus Bill (o11)..... 18

Application of compound-specific stable carbon and hydrogen isotope analysis to characterize organic contamination of groundwater
Jeroen Verhack, Jan Bronders, Ilse Van Keer, Rudy Swennen, Jan Schwarzbauer, Tom N.P. Bosma (o12)..... 22

Evidences for in situ natural attenuation of Monochlorobenzene in an anaerobic contaminated aquifer
Ivonne Nijenhuis, Sylvia Uhlig, Arno Kaschl, Marcell Nikolausz, Matthias Kästner, Hans-Hermann Richnow (o13)..... 24

Stable isotopes as expert witness in traffic accidents: assessing the likelihood between forensic samples of motor oils
Jorge E. Spangenberg, Georges Pierrini, Christophe Champod, Franco Taroni (o14)..... 26

Isotopic investigation of dissolved and sedimentary sulfur compounds for assessing in-situ biodegradation of petroleum hydrocarbons in a sulfate rich urban aquifer
Kay Knoeller, Michael Schubert (o15)..... 32

Tracing the impact of river bank filtration on the transport of xenobiotica in urban groundwater by stable isotopes
Karsten Osenbrück, Rolf Trettin, Kay Knöller, Gerhard Strauch, Hans-Reinhard Gläser, Monika Möder (o16)..... 34

Effects of covering spoil piles on its water budget determined by environmental isotopes
Stephan M. Weise, Jutta Parnieske-Pasterkamp, Rene Vogt, Franziska Rudolph (p11)..... 36

Session 2: Geochemistry & Water

Chairman: J. Hoefs

Isotope fingerprints in the earth sciences: a critical discussion
Jochen Hoefs (inv2)..... 39

Stable isotope ratio measurements using the Finnigan NEPTUNE multicollector ICPMS using high mass resolution
Johannes Schwieters, Claudia Bouman (o21)..... 40

The mineral isotope composition of two Precambrian carbonatite complexes from the Karelian - Kola region <i>Marion Tichomirowa, Gerhard Grosche, Boris Belyatski, Elena Savva, Jörg Keller, Jens Götze, Wolfgang Todt (o22)</i>	41
Development of methods for recovery of water from fluid inclusions for stable isotope analysis <i>Yuri Dublyansky (o24)</i>	43
Determination of δD and $\delta^{18}O$ in brackish and saline natural waters. Part I: The question of distillation of water samples prior to isotopic analysis. <i>Adam Porowski, Peter Kowski (o25)</i>	48
Isotopic evidences for a new type of groundwater in the Kinneret basin, Israel <i>C. Siebert, S. Geyer, P. Möller (o26)</i>	52
Geochemical and isotopic investigations of a fractured rock aquifer including embedded lakes <i>Elke Bozau, Gerhard Strauch (p21)</i>	57
High spatial resolution sulfur isotope analysis of sulfide minerals from the Kupferschiefer deposits of Lubin area, SW Poland <i>H. Roy Krouse, Jan Parafiniuk, Jaroslaw Nowak, Stan Halas (p22)</i>	61
Stable isotope composition of daily and monthly precipitation in Zagreb <i>Jadranka Barešić, Nada Horvatincic, Ines Krajcar Bronic, Bogomil Obelic (p23)</i>	66
Geochemical investigations of the dissolved gases in the Boom Clay pore water <i>Sándor Kele, Hugo Moors, Maarten Van Geet, Mieke De Craen, Staf Valkiers, Mihai Varlam (p24)</i>	70
The water isotopes use for determination of water origin in karstic areas: case study <i>Victor Feurdean, Lucia Feurdean, Ion Stefanescu, Carmen Varlam, Mihai Gligan (p25)</i>	73
Concentration and separation of uranium and thorium from sediment in north Algerian Sahara using organophosphorus extractant and ions exchange resin <i>A.W. Badreddine, H.Brahimi, F. Boucheneb (p26)</i>	76

Session 3: Ecology

Chairman: L. Waasenaar

Global application of stable hydrogen isotopes to wildlife forensics <i>Leonard I. Wassenaar, Keith A. Hobson, Gabriel J. Bowen (inv3)</i>	79
Nitrogen isotope ratios as indicator of organic production <i>Hilmar Förstel, Angelika Basu, Markus Boner (o31)</i>	81
Effects of clear cutting and soil preparation on natural ^{15}N abundance and N concentration in the needle and soil of two boreal conifer tree species <i>S. P. Sah, H. Ilvesniemi (o32)</i>	84
Carbon isotopes distribution along pine needles (<i>Pinus nigra</i>) <i>Lidia Barszczowska, Mariusz-Orion Jedrysek (o33)</i>	85

Potential of natural fouling communities for assimilation of fish farm derived particulate nitrogen: a case study in Gulf of Aqaba (Red Sea) <i>Sonja Lojen, Timor Katz, Anat Tsemel, Ehud Spanier, Dror L. Angel (o34)</i>	90
CO ₂ concentration and $\delta^{13}\text{C}$ through time in sets of monthly air samples from downtown Parma and from the Parma and Taro river valleys, Italy <i>Antonio Longinelli (o35)</i>	94
Carbon isotope discrimination affected by atmospheric pollutants <i>Ralf Wagner (o36)</i>	95
Turnover of soil organic carbon - The microbial perspective <i>Christiane Kramer & Gerd Gleixner (o37)</i>	99
C and O isotope working standards from C ₃ and C ₄ photosynthates <i>Jorge E. Spangenberg (o38)</i>	103
Use of ¹⁵ N tracer technique to understand chronic responses of <i>Daphnia magna</i> after short-term expose to the pyrethroid insecticide fenvalerate <i>Sebastián Reynaldi, Matthias Liess, Klaus Jung (p31)</i>	108
Anthropogenic lakes – negligible sources for climate relevant gases? <i>Horst-Michael Nitzsche, Frank W. Junge (p32)</i>	109
Effects of environmental factors on $\delta^{13}\text{C}$ of lichens <i>Stela Maria Cuna, Gabriela Balas, Elza Hauer (p33)</i>	113
Online measurement of N ₂ -fluxes from soil cores by using the zeolite KÖSTROLITH SX6® coupled to a GC-ConFlow-IRMS <i>O. Spott, B. Apelt, R. Russow, C. F. Stange (p34)</i>	116
Deuterium content in plants with short lifetime: preliminary results <i>Victor Feurdean, Lucia Feurdean, Silviu Apahidean, Maria Apahidean, Augusta Lujerdean, Mihai Gligan (p35)</i>	118

Session 4: Sedimentology

Chairman: M. E. Böttcher

Authigenic sulfur phases as recorders for black shale-triggered anaerobic oxidation of methane: Results from ODP Leg 207 <i>M.E. Böttcher, H.-J. Brumsack, A. Hetzel, A. Schipper (inv4)</i>	121
Microbially-derived methane in coalbed gases: compound-specific carbon-isotopic study of coalbed gases from the Illinois Basin, USA <i>D. Strapoc, A. Schimmelmann, M. Mastalerz (o41)</i>	122
Early diagenesis of sulphur in recent estuarine sediments (Authie Bay, N France) <i>Sonja Lojen, Nevenka Mikac, Cedric Gabelle, Michel Wartel (o42)</i>	124
Sulfur and oxygen isotopes of Lower Miocene nonmarine evaporites in the Upper Silesian Coal Basin <i>S. Halas, T.M. Peryt, I. Pluta (o43)</i>	128
Ordovician and Silurian carbon isotope trend: a state of art report based on the East Baltic data <i>Tõnu Martma, Dimitri Kaljo (o44)</i>	133

Variations of $\delta^{13}\text{C}_{\text{TOC}}$ values of clastic sediments from Thuringia related to biogeochemical carbon cycle <i>Karin Bräuer, Knut Hahne, Birgit Mingram, Ulrich Wand (o45)</i>	136
Basin-Scale changes in Upper Cretaceous paleosols: paleoenvironmental implication for the Maastricht deposits, South Carpathians. <i>Ana-Voica Bojar, Dan Grigorescu, Franz Ottner, Zoltan Csiki (o46)</i>	139
Carbon, oxygen, and hydrogen isotope fractionation during experimental formation of pirssonite <i>M.E. Böttcher, S.M. Bernasconi, K. Simon (p41)</i>	142
Carbon isotope fractionation of methane and CO ₂ during coalbed gas desorption from coal, Illinois Basin, USA <i>D. Strapoc, A. Schimmelmann, M. Mastalerz (p42)</i>	143
Carbon isotopic preliminary studies on paleoenvironmental variations recorded in the Lower Carboniferous deposits from the Bardzkie Mountains (Sudetes, SW Poland) <i>Monika Majewska-Bill, Mariusz Orion Jedrysek (p43)</i>	145

Session 5: Paleoclimatology

Chairman: G. H. Schleser

Stable isotopes as proxies for the reconstruction of past climates <i>G.H. Schleser (inv5)</i>	151
A stable isotope record of an ice core from Akademii Nauk ice cap, Severnaya Zemlya, Russian Arctic <i>Diedrich Fritzsche, Rainer Schütt, Hanno Meyer, Heinrich Miller, Frank Wilhelms, Lev M. Savatyugin (o51)</i>	152
Stable isotope investigations on tree-ring cellulose of Late Glacial pine chronology of Reichwalde (Lusatia). Effects caused by destruction of fossil woods <i>M. Haupt, R. Wagner, T. Boettger (o52)</i>	155
Effect of river regulation on the isotopic characteristics of river water and molluscs <i>István Fórizs (o53)</i>	153
Stable isotope study on the carbonate phases of the Basaharc loess-paleosol profile (Hungary) <i>Bernadett Bajnóczi, Erzsébet Horváth (o54)</i>	159
Geochemical and isotopic variations in recent freshwater carbonates in Krka river, Croatia; Implication for climate reconstruction <i>Sonja Lojen, Baghdad Oudanne, Barbara Vokal, Wolfgang Papersch, Neven Cukrov (o55)</i>	161
Environmental isotope studies in Croatia <i>Ines Krajcar Bronic (o56)</i>	165
Holocene isotopic shift of atmospheric sulfur - a case history from Hungary <i>István Horváth, István Veto (o57)</i>	170
The Eemian and Early Weichselian limnic sequence Ples: Reconstruction of paleo-environmental change by using stable isotope methods and geochemistry <i>Stefan Knetsch, Tatjana Böttger, Frank W. Junge, Peter Morgenstern (p51)</i>	172
