October 2010

Introduction

In July 2007 GFZ hosted the ILP's first Potsdam Conference, titled "Frontiers in Integrated Solid Earth Sciences". The results of this meeting were presented in an over 400 pages large Springer book, the first volume of a new series on the International Year of Planet Earth (IYPE).

This time we were happy to welcome the ILP family and friends to Potsdam in autumn. Overall more than 70 scientists from more than 20 states worldwide came together and shared their results, ideas and visions.

Acknowledgements

The organizers highly appreciated the motivated support by Anne Jähkel and Oliver Oswald during the conference. Without Christine Gerschke's work before, during and after the conference it would not have been possible to host such an event. Thanks to Elisabeth Gantz for the photo documenting of the meeting.

Financial support by the GFZ is gratefully acknowledged.
